

apexenergetics™

EnteroVite™

Support a Healthy & Diverse Microbiome*

Targeted Short-Chain Fatty Acids*

EnteroVite™ incorporates nutrients and a proprietary blend of short-chain fatty acids in a formulation intended to support the intestines and intestinal cell function.* **Short-chain fatty acids (SCFAs)**, such as **butyrate** and **propionate**, are normal bacterial end products of complex carbohydrates and play important roles in intestinal microbial balance and function.* Diets that are low in resistant starch and fiber can result in a low production of SCFAs.

- Formulated for those with sensitivities to certain food components*
- Includes calcium and high-potency antioxidant vitamin E
- Designed to offer support for the intestines and digestion*
- Ingredients selected to support intestinal microbial balance and function*

Supplement Facts
